Appendix D: DD15 – Lateral A Open Ditch Assessment Plat & Schedule.....D

Appendix E: DD15 – Upper Main Open Ditch System Assessment Plat & Schedule.....E

Appendix F: DD16 & DD94 – Common Outlet Assessment Plat.....F

Commissioners' Report

We, Bob Powers, Bob Ritter and Ivan Droessler, having previously filed oath, depose and say that we are the commissioners duly appointed to reclassify lands within the boundary of Drainage District No. 15, Wright County, Iowa (DD15).

DRAINAGE DISTRICT NO. 15

The original petition for establishment of DD15 was filed in 1905. The original facilities of the District consisted of a Main Open Ditch and Lateral A Open Ditch. In 1913, 1,525 feet of Main Open Ditch through Eagle Grove was replaced with a closed conduit. In the 1950's the closed conduit was extended and more of the Main Open Ditch through Eagle Grove was closed. The construction of all facilities was paid for under one assessment schedule when it was established. There has been no reclassification of the District until now. Section 468.131 of the Iowa Code provides that if the "original assessment schedule did not designate separately the amount each tract should pay for the main ditch and tile lateral drains then the board shall order a reclassification in accordance with the principles and rules set forth in Section 468.41." In the Engineer's Report for Drainage District No. 15 Main Open Ditch & Lateral A Open Ditch Repairs dated January 21, 2019, the Engineer recommends that the Main Open Ditch, Lateral A Open Ditch and closed conduits be reclassified to distribute the benefits of each facility. The closed conduit which replaced portions of the Main Open Ditch, will be reclassified as the DD15 Main Tile. In addition, the Engineer's Report recommends the District follow Common Outlet proceeding to assess the lands in Drainage District No. 16 (DD16) and Drainage District No. 94 (DD94) for the benefit they receive from the Main Open Ditch. An amendment to the Engineer's Report filed on April 22, 2019, also recommends that the portion of Main Open Ditch upstream of the closed conduits, be reclassified for benefit as a separate facility referred to as the Upper Main Open Ditch. The Trustees approved reclassification and appointed ISG to prepare this report.

Therefore, this Commissioner's Report for the Reclassification of Benefits addresses the redistribution of benefits for the Main Open Ditch, Main Tile, Lateral A Open Ditch and Upper Main Open Ditch of Drainage District No. 15. In review of the original facilities the interior watersheds and assessment boundaries were established for each facility. The Main Tile and Upper Main Open Ditch were previously considered portions of the Main Open Ditch. The Main Tile begins at the top end of the Main Open Ditch and Continues north through Eagle Grove, until ending north of the school in Section 28 of Eagle Grove Township. The Upper Main Open begins where it enters the Main Tile north of the school in Section 28 of Eagle Grove Township. In addition, a plat showing the lands of DD16 and DD94 and the percentage of benefit assessed to these lands by DD15 under the Common Outlet Classification is included.

Pursuant to our appointment, we have examined the Drainage District's records, as recorded by the Wright County Auditor, to establish the original exterior assessment boundary. Our review found 223.05 acres of lands within the watershed boundary that are not listed on the current assessment

schedule. Again, since there were not separate assessment schedules for each facility of this District, we have established the interior drainage boundaries to determine the benefitted lands for each facility outlined above. Only lands receiving benefit from these separate facilities are included in the given assessment schedules.

In fulfilling our appointment as commissioners, we have examined each tract of land determined to be within the watershed of each facility and have classified each of these parcels based on the following factors; benefitted acres, need of drainage, proximity to outlet, percent of facility usage, and runoff condition. The common outlet cost assessed to the land of DD16 and DD94 by DD15 according to the relative percentages of benefit they derive was also examined, see DD16 and DD94 section of this Report.

For the Main Tile, we have apportioned assessment units of 1,000,000 to lands in the District according to the relative percentages of benefit they derive. For the Main Open Ditch and Lateral A Open Ditch, we have apportioned assessment units of 100,000 to the lands in the District according to the relative percentages of benefit they derive. For the Upper Main Open Ditch, we have apportioned assessment units of 10,000 to the lands in the District according to the relative percentages of benefit they derive.

These apportionments are presented in this Report as the new Assessment Schedules for DD15. These schedules are intended to provide a basis upon which to spread levies required to cover costs, present and future, incurred by the District for the maintenance, repair or improvement of the facilities the schedule is prepared for. A levy to pay for the cost of the 2020 Drainage District No. 15 Repairs will be made by the Eagle Grove City Council acting as Trustees of the District after approval of the assessment schedules.

This Commissioners' Report consists of three (3) Open Ditch System Schedules and one (1) Tile System Schedule. The individual assessment schedules are intended to list all parcels benefitted by the facility for which the schedule is prepared. For each parcel in the District, the schedule provides the following:

1. The names of the owners thereof as shown on the transfer books in the Wright County Auditors' Offices;
2. The number of benefitted acres;
3. The classification or percentage of benefits derived relative to a 100% benefit assigned to the tract found to have the greatest benefit;
4. An apportionment of the total schedule (Assessable Product) according to our classification of benefitted lands for the facility the schedule is prepared.

The schedules also show benefits to the Iowa Department of Transportation, City of Eagle Grove and Wright County Secondary Road right-of-way.

DRAINAGE DISTRICT NO. 16 & DRAINAGE DISTRICT NO. 94 COMMON OUTLET

The Main Open Ditch of DD15 serves as an outlet and provides benefit to the lands DD16 and DD94. The lands of DD16 and DD94 have their own assessment schedules to pay for the maintenance and improvement of their own facilities. However, they are not assessed for benefit through DD15 Main Open Ditch. Land in DD16 and DD94 have been and continue to receive a benefit from the DD15 Main Open Ditch. Because of this the Trustees of DD15, by their authority under Section 468.132 of the Code of Iowa, have decided to assess the lands of DD16 and DD94 a proportional amount of the cost of repairs completed in 2020 on the DD15 Main Open Ditch and future repair, maintenance and improvement of the DD15 Main Open Ditch, by utilizing Common Outlet proceedings.

The Board of Trustees for DD16 and landowners in DD94 were notified that DD15 would be utilizing Common Outlet proceedings per the requirements of Section 468.132 of the Code of Iowa. DD15's recommended repairs were presented at a public hearing held on August 12, 2020. The landowners of DD16 and DD94 may only be assessed for benefits derived from the DD15 Main Open Ditch, through which their discharge passes.

The proportional amount of benefit the lands in DD16 and DD94 receive from the DD15 Main Open Ditch was derived by classifying the lands of each District as if they were a single parcel. Once the lands were classified, the percentage of total benefit that the lands in DD16 and DD94 will be assessed was computed, as follows: 11.77% for DD16 and 13.64% for DD94 of the overall benefit provided by DD15 Main Open Ditch.

This Commissioner's Report also consists of the Common Outlet Summary for DD16 and DD94. The individual proportions assigned to DD16 and DD94 through the Common Outlet are intended to be allocated to the lands of each District through their own assessment schedules.

COMMISSIONER'S RECOMMENDATION

We recommend that this Commissioners' Report containing three (3) Open Ditch System Schedules and one (1) Tile System Schedule for Drainage District No. 15, Wright County and common outlet assessments to Drainage District No. 16 and Drainage District No. 94, Wright County be adopted.

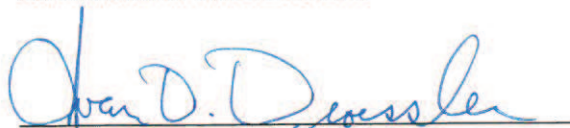

Respectfully submitted,

Commissioner 1, Bob Powers

Commissioner 2, Bob Ritter

Ivan Droessler, P.E., Engineer
